

Hello Students,

I've opted to begin using an online educational platform called [Collabra](#) in my studio. Collabra allows instructors and students to record unlimited audio / video lessons, practices, assessments and time-stamped feedback directly into a cloud-based tool. I believe this tool will enhance our work together and accelerate your growth as a musician.

Please use the following link and course code to get signed up. It is very important for you to read the technology requirements listed in the link provided.

Follow this link to sign up:
